Registered at the Land Registry Office Kadaster as division 4, section H, number 888.

## Features

Suikerpalm Lot 67 is located on the inner ring of the Suikerpalm development and borders an undeveloped zone between La Palma and Suikerpalm. The location offers an excellent combination of peace, space, and a central position on the island.

Accessibility is excellent. The Sorobon area is approximately a 5-minute drive to the east, while Bachelor Beach can be reached within just 2 minutes to the west. The center of Kralendijk is only about a 10-minute drive away. The Suikerpalm development has now been fully completed. The roads have been constructed and paved, and all utility connections, including water and electricity, are installed underground and are available at the lot. This allows you to start building your home immediately, without depending on future infrastructure works.

Within the current zoning plan, Suikerpalm is one of the last residential developments on Bonaire where building lots are still available. A major advantage is that there is no construction obligation, giving you full freedom in the timing and design of your dream home.

- Spacious inner-ring lot
- No building obligation
- Close to popular beaches and the Caribbean Sea
- Ideal for building your own custom dream home
- Water and electricity connections already available
- Paved roads and good infrastructure
- Good accessibility, approximately 10 minutes to the center of Kralendijk
- Located near Kaya Statius van Eps towards Sorobon Beach, next to the La Palma development

Association of owners of roads and facilities Suikerpalm - Annual contribution per plot is USD 200.00.
